SIPLUS S7-1500 PM 1507 24V/3A

SIPLUS S7-1500 PM 1507 24V/3A based on 6EP1332-4BA00 with conformal coating, -40...+70  $^{\circ}$ C, stabilized power supply input: 120/230 V AC output: 24 V DC/3 A

response delay maximum	15 c	
response delay maximum  voltage increase time of the output voltage	1.5 s	
typical	10 ms	
output current	10 1115	
• rated value	3 A	
• rated range	0 3 A	
supplied active power typical	72 W	
short-term overload current		
on short-circuiting during the start-up typical	12 A	
at short-circuit during operation typical	12 A	
duration of overloading capability for excess current		
on short-circuiting during the start-up	70 ms	
at short-circuit during operation	70 ms	
bridging of equipment	Yes	
number of parallel-switched equipment resources for increasing the power	2	
efficiency		
efficiency in percent	87 %	
power loss [W]		
at rated output voltage for rated value of the output	11 W	
current typical		
closed-loop control		
relative control precision of the output voltage with rapid	0.1 %	
fluctuation of the input voltage by +/- 15% typical relative control precision of the output voltage load step of	1 %	
resistive load 50/100/50 % typical relative control precision of the output voltage at load step of	3 %	
resistive load 10/90/10 % typical		
setting time		
• load step 10 to 90% typical	5 ms	
• load step 90 to 10% typical	5 ms	
• maximum	5 ms	
protection and monitoring	Additional control loop limitation (algoridate control) at 4 20 0 V	
design of the overvoltage protection	Additional control loop, limitation (closed loop control) at < 28.8 V	
areaset, of the cutarit short sire, it areaf		
property of the output short-circuit proof	Yes	
design of short-circuit protection	Electronic shutdown, automatic restart	
design of short-circuit protection response value current limitation	Electronic shutdown, automatic restart 3.15 3.6 A	
design of short-circuit protection response value current limitation  • typical	Electronic shutdown, automatic restart	
design of short-circuit protection response value current limitation • typical safety	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A	
design of short-circuit protection response value current limitation • typical safety galvanic isolation between input and output	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes	
design of short-circuit protection response value current limitation • typical safety	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A	
design of short-circuit protection response value current limitation • typical safety galvanic isolation between input and output	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes  Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN	
design of short-circuit protection response value current limitation • typical safety galvanic isolation between input and output galvanic isolation	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes  Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2  Class I	
design of short-circuit protection response value current limitation  ● typical  safety galvanic isolation between input and output galvanic isolation  operating resource protection class	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes  Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2	
design of short-circuit protection response value current limitation • typical safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2 Class I  3.5 mA 0.4 mA	
design of short-circuit protection response value current limitation • typical safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical protection class IP	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes  Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2  Class I  3.5 mA	
design of short-circuit protection response value current limitation • typical safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2 Class I  3.5 mA 0.4 mA	
design of short-circuit protection response value current limitation • typical safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical protection class IP	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2 Class I  3.5 mA 0.4 mA	
design of short-circuit protection response value current limitation • typical  safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical protection class IP  EMC  standard • for emitted interference	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2 Class I  3.5 mA 0.4 mA IP20  EN 55022 Class B	
design of short-circuit protection response value current limitation • typical safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical protection class IP  EMC standard • for emitted interference • for mains harmonics limitation	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2 Class I  3.5 mA 0.4 mA IP20  EN 55022 Class B EN 61000-3-2	
design of short-circuit protection response value current limitation • typical  safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical protection class IP  EMC  standard • for emitted interference • for mains harmonics limitation • for interference immunity	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2 Class I  3.5 mA 0.4 mA IP20  EN 55022 Class B	
design of short-circuit protection response value current limitation • typical safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical protection class IP  EMC standard • for emitted interference • for mains harmonics limitation • for interference immunity standards, specifications, approvals	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes  Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2  Class I  3.5 mA 0.4 mA IP20  EN 55022 Class B EN 61000-3-2	
design of short-circuit protection response value current limitation • typical  safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical protection class IP  EMC  standard • for emitted interference • for mains harmonics limitation • for interference immunity  standards, specifications, approvals certificate of suitability	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes  Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2  Class I  3.5 mA 0.4 mA IP20  EN 55022 Class B EN 61000-3-2 EN 61000-6-2	
design of short-circuit protection response value current limitation • typical  safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical protection class IP  EMC  standard • for emitted interference • for mains harmonics limitation • for interference immunity  standards, specifications, approvals certificate of suitability • CE marking	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes  Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2  Class I  3.5 mA 0.4 mA IP20  EN 55022 Class B EN 61000-3-2 EN 61000-6-2  Yes

design of short-circuit protection response value current limitation • typical  safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical protection class IP  EMC  standard • for emitted interference • for mains harmonics limitation • for interference immunity  standards, specifications, approvals  certificate of suitability • CE marking • UKCA marking  MTBF at 40 °C  ambient conditions ambient temperature • in horizontal mounting position during operation	Electronic shutdown, automatic restart  3.15 3.6 A  3.4 A  Yes  Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2  Class I  3.5 mA  0.4 mA  IP20  EN 55022 Class B  EN 61000-3-2  EN 61000-6-2  Yes  Yes  Yes  1 611 993 h  -40 +70 °C; with natural convection	
design of short-circuit protection response value current limitation • typical  safety galvanic isolation between input and output galvanic isolation  operating resource protection class leakage current • maximum • typical protection class IP  EMC  standard • for emitted interference • for mains harmonics limitation • for interference immunity  standards, specifications, approvals  certificate of suitability • CE marking • UKCA marking  MTBF at 40 °C  ambient conditions ambient temperature	Electronic shutdown, automatic restart 3.15 3.6 A 3.4 A  Yes Safety extra-low output voltage Vout acc. to EN 60950-1 and EN 50178 and EN 61131-2 Class I  3.5 mA 0.4 mA IP20  EN 55022 Class B EN 61000-3-2 EN 61000-6-2  Yes Yes Yes 1 611 993 h	

installation altitude at height above see level maximum	6 000 m	
installation altitude at height above sea level maximum ambient condition relating to ambient temperature - air pressure		
- installation altitude	In case of operation at altitudes of 2000 - 6000 m above sea level: Output power derating of -7.5 %/1000 m or reduction of the ambient temperature by 5 K/1000 m	
relative humidity with condensation according to IEC 60068-2-38 maximum	100 %; RH incl. condensation/frost (no commissioning if condensation is present), horizontal installation	
chemical resistance to commercially available cooling lubricants	Yes; incl. diesel and oil droplets in the air	
resistance to biologically active substances conformity according to EN 60721-3-3	Yes; Class 3B2 mold, fungal, sponge spores (except fauna); class 3B3 upon request	
resistance to chemically active substances conformity according to EN 60721-3-3	Yes; Class 3C4 (RH < 75%) incl. salt spray acc. to EN 60068-2-52 (severity level 3)	
resistance to mechanically active substances conformity according to EN 60721-3-3	Yes; Class 3S4 incl. sand, dust	
resistance to biologically active substances conformity according to EN 60721-3-6	Yes; Class 6B2 mold, fungal, sponge spores (except fauna)	
resistance to chemically active substances conformity according to EN 60721-3-6	Yes; Class 6C3 (RH < 75%) incl. salt spray acc. to EN 60068-2-52 (severity level 3)	
resistance to mechanically active substances conformity according to EN 60721-3-6	Yes; Class 6S3 incl. sand, dust	
coating for equipped printed circuit board according to EN 61086	Yes; Class 2 for high availability	
type of coating protection against pollution according to EN 60664-3	Yes; Type 1 protection	
type of test of the coating according to MIL-I-46058C	Yes; Discoloration of the coating during service life possible	
product conformity of the coating Qualification and Performance of Electrical Insulating Compound for Printed Board Assemblies according to IPC-CC-830A	Yes; Conformal Coating, Class A	
connection method		
type of electrical connection	Screw-/spring clamp connection	
at input	L, N, PE: 1 screw terminal each for 0.5 2.5 mm <sup>2</sup>	
at output	L+, M: 2 spring-loaded terminals each for 0.5 to 2.5 mm <sup>2</sup>	
removable terminal at input	Yes	
removable terminal at output	Yes	
mechanical data	100	
width × height × depth of the enclosure	50 × 147 × 129 mm	
installation width × mounting height	50 mm × 205 mm	
required spacing	00 mm · 200 mm	
• top	40 mm	
• bottom	40 mm	
• left	0 mm	
• right	0 mm	
fastening method	Can be mounted onto S7-1500 rail	
· ·		
DIN-rail mounting     C7 rail mounting	No	
S7 rail mounting	Yes	
wall mounting	No	
housing can be lined up	Yes 0.45 kg	
net weight	0.45 kg

additional information		
other information	Specifications at rated input voltage and ambient temperature +25 °C (unless otherwise specified)	
security information		
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly	

recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
