Data sheet

6ES7924-0CL20-0BA0

CONNECT. MOD. TP3 FUSE LED SCREW TERM.

Connection module TP3 with fuse per channel 8 channels and 2x10 terminals for Potential supply Type: Screw terminal with LED, VPE=1 unit 16 pole IDC connector f cable

target system	SIMATIC S7-300 / 1500		
suitability for use	Digital I/O modules		
product type designation	Fully modular connection		
product designation	Connection module		
electrical data			
operating voltage			
at DC / rated value	24 V		
• rated value	24 V		
at DC / maximum	28.8 V		
ampacity / per pin / maximum	1 A		
continuous current / at DC / per signal cable / maximum	1 A		
total current / maximum	4 A		
display version			
 as status display of the inputs/outputs 	LED yellow for "active high"		
for power supply / power LED	Yes; green for 24 V DC O.K.		
product function / infeed function	Yes		
product component			
PE connection	No		
 shield connection 	No		
disconnector	No		
product feature / cross-connectable	No		
connection method			
number of terminals	28; 8 x I/O; 10 x L+, 10 x M		
number of channels	8		
type of connecting terminal	Screw-type terminal		
position / of the terminal	Тор		
number of terminal levels	1		
design of terminal / terminal levels internally linked	No		
type of electrical connection / for connecting cable	Plug-in connection		
number of poles / at the 1st interface	16; IDC connector with installed strain relief for the connecting cable		
number of the plug contacts / of the electrical connection	1		
wire length / maximum	30 m; between front connector module and Connection module		
type of connectable conductor cross-sections / solid	No		
connectable conductor cross-section			
• for flexible conductor / with core end processing	0.5 2.5 mm²; End sleeve according to DIN 46228/1		
• stranded	0.5 2.5 mm²		
• finely stranded / with core end processing	0.5 2.5 mm²		
number of cables / per connection	2; Connection for internal system: Combination of 1 or 2 Wires until the sum total of cross sections be achieved in a ferrule.		
width of screwdriver blade	3.5 mm		

tightening towns	0.4 0.5 N				
tightening torque	0.4 0.5 N·m				
standards, specifications, approvals					
certificate of suitability • cULus approval	Voc				
design tested acc. to type of protection / EEx e	Yes				
overvoltage category	2				
degree of pollution	2				
combustibility class according to UL 94	V1				
standards, specifications, approvals / Environmental Product D					
Environmental Product Declaration	Yes				
global warming potential [CO2 eq]	100				
• total	37.8 kg				
during manufacturing	2 kg				
during operation	35.5 kg				
after end of life	0.19 kg				
ambient conditions					
ambient temperature					
during operation	0 60 °C				
during storage	-40 +70 °C				
mechanical data					
width × height × depth	57 mm × 76 mm × 60 mm				
mounting type	DIN rail 35 mm, DIN rail 15 mm				
mounting position	any				
height / with lowest-profile installation	60 mm				
net weight	0.3 kg				
insulation material	other				
color					
 of the enclosure 	grey				
of the light source	other				
product component / required / end cover plate	No

marketing text	otherwise specified) The TP3f connection module for potential connection with screw signalling forms the interface be and the SIMATIC S7 that are bit DIN rail and is exactly adapted with screw terminals. This connect addition to low wiring costs, erroreduced. Sensors and actuators connection modules of SIMATIC	r a 3-wire connection with terminals, fuses for the setween the connection carought in from the field. The tothe respective task that ection module is part of the fastest and safer sources in cabling can be from the peripherals are CTOP connect and connect plug-in module.	n 8 channels and ignals and LED for bles of the peripherals his is mounted on the nks to its functionality he fully modular fest system cabling. In be significantly combined with the ected to the SIMATIC		
marketing text	otherwise specified) The TP3f connection module for potential connection with screw signalling forms the interface be and the SIMATIC S7 that are but DIN rail and is exactly adapted with screw terminals. This connect addition to low wiring costs, error reduced. Sensors and actuators connection modules of SIMATIC S7-300/1500 via cable and from	r a 3-wire connection with terminals, fuses for the setween the connection carought in from the field. The tothe respective task that ection module is part of the fastest and sature of the fastest and	n 8 channels and ignals and LED for bles of the peripherals nis is mounted on the nks to its functionality ne fully modular fest system cabling. In be significantly combined with the ected to the SIMATIC		
marketing text	otherwise specified) The TP3f connection module for potential connection with screw signalling forms the interface be and the SIMATIC S7 that are brown signalling forms the interface be and the SIMATIC S7 that are brown signal and is exactly adapted with screw terminals. This conn SIMATIC TOP connect connect addition to low wiring costs, error reduced. Sensors and actuators connection modules of SIMATIC S7-300/1500 via cable and from eClass	r a 3-wire connection with terminals, fuses for the setween the connection carought in from the field. Till to the respective task that ection module is part of the ion for the fastest and said or sources in cabling can set from the peripherals are CTOP connect and connect plug-in module. Version 14	n 8 channels and ignals and LED for bles of the peripherals nis is mounted on the nks to its functionality ne fully modular fest system cabling. In be significantly combined with the ected to the SIMATIC		
marketing text	otherwise specified) The TP3f connection module for potential connection with screw signalling forms the interface be and the SIMATIC S7 that are but DIN rail and is exactly adapted with screw terminals. This connect addition to low wiring costs, error reduced. Sensors and actuators connection modules of SIMATIC S7-300/1500 via cable and from eClass eClass eClass	r a 3-wire connection with terminals, fuses for the setween the connection carought in from the field. Till to the respective task that ection module is part of the function for the fastest and sate or sources in cabling can set from the peripherals are CTOP connect and connect plug-in module. Version 14 12 9.1	n 8 channels and ignals and LED for bles of the peripherals his is mounted on the nks to its functionality ne fully modular fest system cabling. In be significantly combined with the ected to the SIMATIC Classification 27-25-01-12 27-14-11-28 27-14-11-28		
marketing text	otherwise specified) The TP3f connection module for potential connection with screw signalling forms the interface be and the SIMATIC S7 that are big DIN rail and is exactly adapted with screw terminals. This connect addition to low wiring costs, error reduced. Sensors and actuators connection modules of SIMATIC S7-300/1500 via cable and from eClass eClass eClass eClass eClass	r a 3-wire connection with terminals, fuses for the setween the connection carought in from the field. The tothe respective task that ection module is part of the fastest and sation for the fastest and sation sources in cabling can be from the peripherals are CTOP connect and connect plug-in module. Version 14 12 9.1 9	n 8 channels and ignals and LED for bles of the peripherals his is mounted on the nks to its functionality he fully modular fest system cabling. In be significantly combined with the ected to the SIMATIC Classification 27-25-01-12 27-14-11-28 27-14-11-28
